General Description
Design a survey template for Bridges in Qualtrics

Project Details
The Bridges Curriculum will often require surveys to be distributed as part of the curriculum development assessment and evaluation plan. This project will develop a Qualtrics design template so that each survey which is distributed will have a standardized design, designating that it comes from Bridges. Creating a distinct, aesthetically pleasing design will help distinguish Bridges surveys from other surveys being sent.

Volunteer Requirements

- **Estimated Hours**: 2 hours
- **Skills Required**: Qualtrics design and visual design
- **Benefits for Volunteering**: Gaining design experience and experience with Qualtrics

Other Project Information

- **Project Number?**
- **Important Dates**: Due by end of May
- **Availability Requirements**: none
