2016-2017 UCSF Housestaff Appointment Paperwork Deadlines

All paperwork is due to the GME Office by 3:00pm on the date assigned submitted through UCMe GME portal. GME will generate a report of all documents received and return to the program within two weeks of deadline (not date received). Programs then have two weeks to return all missing documents to GME. Anything not submitted by this date is considered late – no guarantee provider ID will be issued by start date. Housestaff will not be issued a Provider ID if paperwork is incomplete. Please submit complete packets only, with the exception of visa and medical licenses.
