Making the Invisible Visible:  
Teaching Clinical Reasoning

Tuesday, February 9, 2016 - 5:30-8p – MH4700 (Mission Hall)

Denise Conner, MD
Assistant Professor, Medicine

Learning Objectives

1. Define key concepts in clinical reasoning including problem representation, illness scripts, and prioritized differential diagnosis

2. Develop an approach for improving your trainees’ clinical reasoning skills

3. Appreciate common sources of cognitive error in diagnosis

Refreshments will be served. Please RSVP to Andrea Cunningham at Andrea.Cunningham@ucsf.edu. Walk-ins are welcome.
