Dear Residents and Fellows,

After almost ten years of preparation, it is time to open the new UCSF Mission Bay Medical Center! Please join us at GME Grand Rounds on Tuesday, January 20 at noon (at N225 Parnassus) for an in-depth discussion of plans for Mission Bay, including patient flow, clinical issues between services, interaction between Mission Bay and Parnassus, etc. Come with questions and any concerns!

Here is some initial information re services that will be available for residents and fellows:

- **UCSF Shuttles:** Shuttle service to and from Mission Bay has been enhanced to include early morning shuttles. For the shuttle schedule please go to [http://campuslifeservices.ucsf.edu/transportation/services/shuttles](http://campuslifeservices.ucsf.edu/transportation/services/shuttles)

- **Parking:** Residents and fellows may purchase monthly parking permits for $174 for use at Parnassus, Mt Zion, and Mission Bay. Parking permits can either be purchased in person from a transportation office located at Parnassus (Millberry Union, P7) or Mission Bay (Rutter Center Garage, Suite 104) or online (and picked up in person). Daily parking permits for $10.50 each are also available for purchase through the new pay-by-phone system. Like Parnassus, Mission Bay provides free parking for residents and fellows from 4:45pm to 9:00am, Monday through Friday and anytime on UC holidays and weekends. (A 2014-2015 sticker is required; contact your program coordinator if you do not have one). For more information please go to [http://campuslifeservices.ucsf.edu/transportation/services/parking](http://campuslifeservices.ucsf.edu/transportation/services/parking)

- **Call Rooms:** Programs that have residents and fellows on in-house call have been assigned call rooms and those assignments will be released soon. There will also be call rooms available for all other residents and fellows on an as needed basis.

- **Food Services:** The main cafeteria will be open from 7am to 7pm Monday through Friday and 7am to 3pm on the weekends. In addition, an express cafeteria with grab and go food options and Peet’s coffee will be open seven days a week from 6am to 11pm. Vending machines, including fresh food options, will be located near the cafeteria, and are available 24 hours a day.

- **Lounges:** There are two resident and fellow lounges for the use of all UCSF trainees. One lounge is designed to be more of a quiet/library/napping space while the other is meant for work, socializing, and collaboration. They are located on the second floor on the southwest side near the stairwell off of the Children’s Surgical Waiting Area.

- **ATM:** An ATM will be located near the cafeteria.

- **Occupational Health:** An Occupational Health satellite office will be located in the Children’s Hospital near the cafeteria.

If you would like to know more about UCSF at Mission Bay please check out the following:

- **Online Modules:** Residents and fellows in programs currently assigned to Mission Bay are required (and have received emails from GME) to complete the Fit Up Fire and Life Safety Orientation module on the UC learning management system. Residents and fellows should also take the Way Finding and Life Safety module (also on the LMS), which will orient them to the layout of the new hospital; identify safety equipment; and talk about the new technologies available. Both modules can be found on the following website by searching by module name: [https://learningcenter.ucsfmedicalcenter.org/](https://learningcenter.ucsfmedicalcenter.org/)

- **In-Person Tours:** Tours are offered Monday through Friday (except January 15th and 19th) at 9:00am (start promptly) and last approximately one-hour. The tours are limited to 15 people, so an RSVP is required by emailing Valerie Bednar and Svetlana Krassovsky at [Valerie.Bednar@ucsf.edu](mailto:Valerie.Bednar@ucsf.edu) and [Svetlana.Krassovsky@ucsf.edu](mailto:Svetlana.Krassovsky@ucsf.edu)

- **Pocket Guide:** Pocket Guides designed for staff and physicians that contain maps of the new building; descriptions of amenities available; a phone directory; emergency and safety information; and other general information of interest will be distributed through the Office of GME at the beginning of February.

In addition to GME Grand Rounds on 1/20, we will also discuss any and all issues related to Mission Bay at the January GMEC meeting (1/26) and at the Chief Resident Dinner (1/27). Please let your program director and me know if you have any additional questions or concerns.

Best,

Bobby Baron

GME
