Mission Bay Hospital Resident and Fellow Lounges--New Door Code

Dear all:

A brief reminder that there are two resident and fellow lounges for the use of all UCSF residents and fellows at Mission Bay Hospital.

One lounge is designed to be more of a quiet/library/napping space while the other is meant for work, socializing, and collaboration. They are located on the second floor on the southwest side near the stairwell off of the Children’s Surgical Waiting Area. (The room numbers are C2933 and C2931). The door code is 1324-123.

Please let me know if you have any additional suggestions for this space.

Best,

Bobby Baron
GME

PS: More furniture is on the way. We also hope to have some simple snacks in the lounge soon.
