Dear Residents and Fellows,

As you know, the [UCSF flu shot policy](#) requires that you be vaccinated for the seasonal flu. If you have not done so already, please obtain your free flu shot as soon as possible at UCSF, the San Francisco VA, or ZSFG. More information on clinic locations and hours of operation are posted on the [Occupational Health website](#). Drop-in hours are also listed below.

Anyone who declines a flu shot must sign a declination form and wear a hospital-supplied mask while in areas where patients are seen, evaluated and treated. The online flu declination form will be available in mid-November on the Occupational Health website.

If you received a vaccination outside of UCSF, you must bring documentation to Occupational Health Services to receive a badge sticker. Occupational Health will add this documentation to your electronic health records.

For information about the UCSF Flu Shot Program, you may contact Occupational Health at 415-885-7580 (Option 1), or email [OccupationalHealthServices@ucsf.edu](mailto:OccupationalHealthServices@ucsf.edu).

Thank you!

Best,

Deanna Seid  
Manager, Resident and Fellows Affairs, GME
