APPLICATION FOR DEPARTMENTAL 198 SUPERVISED STUDY ELECTIVE

STUDENT INSTRUCTIONS:

1. Submit the form at least 4 weeks prior to the start of the work being done. If the form is not submitted by this deadline, you may not be able to receive credit for your work.

2. You will be contacted by email when the form has been signed/approved by the Dean. Processing time for most forms is 5-7 business days.

3. It is your responsibility to add the course to your study list for the appropriate term(s). BE VERY CAREFUL TO ADD THE DEPARTMENTAL 198 COURSE (e.g., MEDICINE 198 AND NOT IDS 198!)

Application for Departmental 198 Supervised Study

Student Name: Margot Zarin-Pass

B. Supervised Study Summary
I will be participating in FASPE – Fellowships as Auschwitz for the Study of Professional Ethics. This is a 10 day trip to Holocaust sites in Germany and Poland accompanied by a medical ethics curriculum. Two MD bioethicists teach the curriculum, and the program is sponsored by the Museum of Jewish Heritage. I will use the time of independent study to complete the assigned pre-reading for FASPE, attend the program (which involves travel and many small group seminars), and write a follow up essay discussing the program.

C. Learning Activities: Describe what you will do and how this will fill 40 hours per week.
For the first portion of the course, I will be completing the required reading for FASPE. The trip itself is 10 days. The tentative itinerary for the program includes many seminar discussions such as “What does it mean to be a professional” and “The medical profession under Nazi rule”. We will also be visiting places such as Auschwitz, The Brandenburg “Euthanasia” Memorial, and Memorial to the Murdered Jews of Europe. After the trip, I will be working on my final essay.

D. Learning Resources: What resources will you use to meet your learning objectives? (eg, textbooks, websites, faculty experts).
FASPE provides us with copies of all assigned reading. As stated above, we will be traveling with two bioethicists who will be leading our seminars with the help of local experts from each of our site visits.

As an example, here is part of the reading list for the program:
Doris L. Bergen, War & Genocide (2nd ed, 2009), Chapters 5-8, pp. 101-232

E. Expected Outcome/Product: Examples include a report, manuscript, web resource, or score on an examination.
As part of the FASPE program, I am expected to write an essay or manuscript about my experience. This can be solely submitted to FASPE (and UCSF for verification of my studies) or can be designed for submission to a medical journal.

F. Plan for Communication with your Faculty Supervisor:
I will keep in contact with Dr. Monash about my experience before, during, and after the trip. I will send him my final essay for him to review.
