

Inquiry Symposium and Pathways to Discovery Awards

Wednesday, May 3rd, 2017 - Millberry Union Gymnasium

12:00 pm

Welcome and Opening Remarks

Christopher Stewart, MD, MA
Chair, Pathways to Discovery Board of Directors

12:05

Dean's Prize Award Presentations

Talmadge E. King Jr., MD
Dean, School of Medicine

Trevor Brodsky-Brooks, Global Health:

Evolution of Zika Virus Outbreak on Roatan, Honduras: A real-time observation of the epidemic

Danielle Cipres, Health & Society:

Racial/ethnic differences in young women's use of health-promoting strategies to reduce their vulnerability to sexually transmitted infections

Colette DeJong, Clinical and Translational Research:

Pharmaceutical Industry-Sponsored Meals and Physician Prescribing Patterns

Steven Garcia, Molecular Medicine:

Human Satellite Cells are Heterogenous and a Contain Bona Fide Stem Cell Population

John Huizar, Molecular Medicine:

Chronic self-antigen stimulation drives Nur77 expression in B-1a cells to limit natural IgM plasma cell differentiation

James Salazar, Clinical and Translational Research:

Cost-Effectiveness of Direct-Acting Anti-viral Treatment in Hepatitis C-infected Liver Transplant Candidates with Compensated Cirrhosis and Hepatocellular Carcinoma

12:35

CHIH Award in Neuroscience | Presented by Dan Lowenstein, MD to Joy Lin

12:40

Pathways to Discovery Mentor Award | Presented by Chris Stewart, MD to:

Alejandra de Alba Campomanes, MD, MPH, mentor to Lauren Hennein, Clinical & Translational Research

Laurence Baskin, MD, mentor to Dylan Isaacson, Molecular Medicine

Marcia Glass, MD, mentor to Jennifer Olenik, Health Professions Education

Urmimala Sarkar, MD, MPH, mentor to Sneha Thatipelli, Health & Society

12:45

Pathways to Discovery Award Presentations

Catherine Burke, Health Professions Education:

The role of third year clerkship students and the potential for change

Michael Davies, Molecular Medicine:

Inhibition of TGF- β Signaling Results in Decreased Fibrosis and Fatty Infiltration of the Rotator Cuff in a Mouse Model of Rotator Cuff Tear

Matthew Dizon, Clinical & Translational Research:

Quality of Ambulatory Cancer Care in Different Healthcare Settings: A comparison of patient-reported and clinical measures from 1,353 skin cancer patients at a Veterans Affairs clinic and a fee-for-service practice

Claire Gibson, Health & Society:
From Novice to Expert: How Caregivers of Ventilator-Dependent Children Learn

Brennan Vail, Global Health:
Intrapartum Simulation as a Tool for Improving the Quality of Neonatal Resuscitation Skills in Bihar, India

Pathways to Discovery Honorable Mentions:

Clinical & Translational Research Pathway:	Katherine Wai and Andre Cote
Global Health Pathway:	Jill Hagey and Anita Hargrave
Health & Society Pathway:	Sarah Cheng and Faby Molina Torres
Health Professions Education Pathway:	Katherine Gruenberg and Robert Ruelas
Molecular Medicine Pathway:	Dylan Isaacson and Max Wu

1:10	Closing Remarks
1:15	<i>Break and Poster Session Preparation</i>
1:30	Poster Session #1
2:30	<i>Break</i>
2:45	Poster Session #2
3:45	<i>Questions and Answers / Meet and Greet</i>
4:00	Adjourn
