

New Education Innovations Funding Grants Awarded

[The Haile T. Debas Academy of Medical Educators](#), in collaboration with the [UCSF Program in Interprofessional Education](#) and the [UCSF Library and Center for Knowledge Management](#), is pleased to announce 20 new Education Innovations Funding awards for the 2016-2017 academic year. Totalling \$309,742, these intramural grants are expected to make significant contributions to educational excellence at UCSF. Working collaboratively to integrate programs and resources has expanded our capacity to provide the campus community with more efficient and effective support that leverages creative partnerships, raises the visibility of scholarly work in education, and reaches successfully across traditional domains in education.

Our collaboration of three UCSF programs that fund education innovations addressed a range of priorities in education of students and trainees at UCSF. The call resulted in an unprecedented crop of strong proposals. Thus, we sought and identified additional funding partners including the Department of Medicine at Zuckerberg San Francisco General and [Tideswell™ at UCSF](#). Responsibility for reviewing the submissions was shared within the collaboration.

The Academy's Innovations Funding program, open to all UCSF faculty, provides intramural grants for the development of new curricular programs and promotion of constructive curricular change. Since the program's inception, the Academy has awarded more than \$2.5 million to more than 130 projects.

The Library Instructional Grants Program has funded interprofessional education projects for the last 8 years, with co-funding from the Program in Interprofessional Education for the last 7. During this period, the Library-IPE programs have funded over 30 projects for over \$450,000.

The call for the next cycle of Education Innovations Funding grants will be released in the summer of 2016. For more information, contact Kathleen Land, kathleen.land@ucsf.edu.
