OFFICE OF SPONSORED RESEARCH

OSR provides expert administrative support to all researchers, from proposal development, to award negotiation and acceptance for contracts, grants, and fellowships from government, non-profit, and industry sponsors. We partner with a range of administrative units in order to provide seamless sponsored project support.

FIND SUPPORT: osr.ucsf.edu/content/find-support

RESEARCH MANAGEMENT SERVICES

With delegated institutional signature authority, each RMS team collaborates closely with investigators, their departments and our sponsors so that investigators may be successful in securing research grants.

GOVERNMENT & BUSINESS CONTRACTS

GBC provides expert services to faculty seeking contracts with federal, state, municipal or foreign governments. With delegated institutional signature authority, our team also provides effective contracting services to the schools, faculty, and core labs needing negotiation, facilitation and advice on training affiliations, professional services and faculty consulting.

INDUSTRY CONTRACTS DIVISION

ICD reviews, negotiates and executes of all industry sponsored research agreements. These include agreements for non-disclosure/confidentiality, material transfers, data use, research agreements, collaborations, clinical trials, and any other agreements that may be funded by an industry sponsor.

PIs notify Office of Sponsored Research (OSR) staff of intent to submit:

- **At least 30 calendar days** prior to sponsor submission deadline for standard solicitations such as R01, R03, R21 and fellowships
- **At least 60 calendar days** prior to submission deadline for larger proposal, such as proposal with subcontracts or international components
- **4-6 months** prior to sponsor submission deadline for complex proposal such as complex center grants, institutional training grants and cooperative agreements such as P01, T32, U54
