

Department: \_\_\_\_\_ Course Number: \_\_\_\_\_

Name of Global Health Elective: \_\_\_\_\_

### Course Goals & Objectives

Student Name \_\_\_\_\_

Site Physician \_\_\_\_\_

Foreign Site \_\_\_\_\_

Dates of Elective \_\_\_\_\_

**Professional competencies:** Indicate the professional development competencies that will be addressed in the goals of this global health elective.

**1. Research & Scholarship**

- Understand GH concepts & diseases; the roles of history & environment
- Create ethical & sustainable relationships and projects
- Base work on local needs, active GH problems, literature review & evaluation plan

**2. Leadership & Advocacy**

- Understand GH policy & financing & models of healthcare delivery
- Practice collaboration on multiple levels
- Demonstrate informed leadership & advocacy

**3. Professional Exploration & Identity**

- Find career role models
- Form alliances with other professionals to address GH issues
- Demonstrate GH scholarship in clinical and project work

---

**Goals/Objectives & Timeline:**

Goals should be both specific and measurable to allow you and your supervisor to determine if they were accomplished. Goals should originate from the student. Note the time frame for each goal. Goals may also be in areas beyond the three professional competencies listed above. *Note: Check-ins with UCSF mentor required: 2 – 4 times (one before, one after, and if possible two while abroad).*
